

Pesticides

Notification of Pesticide Application

As part of River School's pest management program pesticides are occasionally applied. Current regulations state you have the right to be informed prior to any pesticide application to school grounds and buildings. This is intended to serve as prior notice of regular pesticide treatment. River School's pesticides treatments are once per month, or on an as needed basis.

In certain emergencies pesticides may be applied without prior notice, but you will be provided notice following such applications. If you have any questions please contact Laura Lausch, Carol Quattin or Sherri Randolph at 269-925-6757.
